## Key Benefits

- Patented Colour Fold Module 'C' to optimise handling of colour and coated media
- Modular system for customised solutions
- 25 or 30 sheet (80gsm) Booklet Maker
- Automatic switching between two jobs (for example A3 to A4 jobs)
- Dynamic system: switching between booklet sizes and thicknesses requires no operator intervention
- Uses professional Hohner stitching heads (up to 50,000 stitches from one roll of wire)
- Professional 'top and bottom' trimming precisely trims the booklet from both sides at once
- 2-Side Trimmer: high quality cut at once, 2-35mm
- SquareFolding Module to create a square spine booklet
- Cost effective solution for 10,000 booklets or more per month because wire is about 90% cheaper than staple cassettes
- Productivity: up to 100K / 300K booklets per month (300K with special maintenance plan)

# Efficiency & Quality

This system is designed for online use behind the Canon cut sheet printers. The machine can be used online behind the High Capacity Stacker.

This booklet maker system is extremely flexible and easy to use which significantly improves productivity and efficiency.

The Booklet Maker System is a modular system comprising the Rotator, Booklet Maker, Face Trimmer, 2-Side Trimmer, SquareFold module and Belt Stacker.

The BLM6900C Booklet Maker System can be easily set up from the digital display. Jobs can be saved in the memory for quick recall. The system is designed with high productivity in mind, which means that it has the ability to handle long runs without any operator intervention.

Full colour brochures, manuals, policy documents and reports, for example, can be quickly printed and finished in one streamlined operation without the need for additional handling or finishing steps.

# Floorplan

The system requires 400 mm of additional floor space at the front and rear side of the machine for installation, operation and maintenance.

SDD SFM6904 SquareFold Module

SDD BST6900 Belt Stacker (75 cm)

SDD BST6800 Belt Stacker (150 cm) optional

SquareFold booklet  
gives a perfectly  
flat finish with  
a square spine.

By printing on the spine it is possible to reproduce a professional magazine or book-like finish, which considerably enhances the booklet appearance.

The combination of 2-Side Trimmer and SquareFold Module makes it possible to produce professional-looking, full-bleed, booklets with a square spine. With these two options it is possible to obtain the look and feel of first class booklets! Booklets are perfectly finished: totally flat with a square spine.

By printing on the spine it is possible to reproduce a professional magazine or book-like finish, which considerably enhances the booklet appearance and adds more versatility to booklet making.

Specially designed for high reliability and long production runs.

The BLM6900C System accepts and trims a booklet with a maximum thickness of 6 mm (approximately booklet of 30 sheets 80 g/m<sup>2</sup> paper, depending upon paper quality).
